Philips
Pure water on tap

WP3821

Pure water made easy

with MicroClean filter

Pure Water
- Removes impurities and odors in water

Made Easy
- Hi-Flow allows maximum flow rate of 2 litres per minute
- QuickFit tap adapters for easy installation on kitchen tap
- QuickTwist mechanism for easy filter replacement
- Electronic PureProtect alert on LCD display

PHILIPS
sense and simplicity

Specifications

General specifications
- Water Selection: Filtered spray, Unfiltered spray, Unfiltered stream
- Replacement Filter Cartridge: WP3911
- Accessories: 9 QuickFit tap-mounting adapters, Colour coded PureProtect Alert

Technical Specifications
- Major Filter Components: Polysulfone hollow fibre membrane, Granular activated carbon
- Max. Input Water Temperature: 50 °C
- Input Water Pressure: 70 - 350 kPa
- Inital Water Flow Rate: 2 Litres/min, Water pressure @ 100kPa, Water temperature @ 20°C
- Turbidity Reduction Capacity: 3000 Litres (density @ 2 NTU)
- Chlorine Reduction Capacity: 2500 Litres (density @ 2 ppm)
- Filter Lifetime: Approx. 6 months

Dimensions and weight
- Product dimensions (LxWxH): 93 x 144 x 112 mm
- Product weight: 370 g
- F-box dimensions (LxWxH): 88 x 170 x 140 mm
- F-box weight: 490 g
- A-box dimensions (LxWxH): 360 x 450 x 165 mm
- A-box weight: 5.7 kg

Logistic data
- EAN F Box: 87 10103 39955 1
- EAN A Box: 87 10103 39956 8
- Quantity per A Box: 10 pcs
- Country of Origin: Japan

Product highlights

MicroClean filter
The MicroClean filter is a multi-filtration system that removes impurities and odors for clean, safe and tasty drinking water. It consists of (1) a hi-tech hollow-fibre membrane, which contains more than 520 billion micro-pores for the efficient removal of 99.99% of all bacteria, and (2) granular activated carbon, which removes unpleasant chlorine, bad taste and odors.(3) The filter also preserves the good minerals in the drinking water that are vital for human health.

Hi-Flow
This compact water purifier has a maximum flow rate of two litres per minute, which makes little change to the normal flow rate of unfiltered water. By simply rotating the water selection lever, you also have a choice of either a stream or a spray of unfiltered water or sprayed filtered water.

QuickFit tap adapters
The appliance comes with a number of tailor-made QuickFit tap adapters, making sure it will fit on almost any type of kitchen tap

QuickTwist filter change
The QuickTwist filter change mechanism makes changing the filter quick, easy and secure.

Electronic PureProtect alert on LCD display
The LCD display on the water purifier shows the actual remaining filter capacity. A blinking signal warns you when the filter needs replacing.
